Summary

Results-driven BTP AI Engineer and Artificial Intelligence & Data Science undergraduate (CGPA: 9.18) with hands-on enterprise experience architecting cloud applications, full-stack systems, and production AI workflows. Experienced at Abhiyanta India Solutions in developing SAP BTP solutions using Cloud Application Programming (CAP), SAP S/4HANA Cloud OData APIs, and React/SAPUI5. Strong problem solver leveraging Document AI, computer vision, and event-driven architectures to automate mission-critical industrial manufacturing and business operations.

Education

P.E.S. Modern College of Engineering, Pune 2022 – 2026
Bachelor of Engineering in Artificial Intelligence and Data Science **CGPA: 9.18**

Work Experience

BTP AI Engineer Intern June 2026 – Present
Abhiyanta India Solutions Pvt. Ltd. *Recipient of Star Award*

- **BTP Lens (Observability & Cost Governance):** *Problem:* Siloed SAP BTP Cockpit views lacked cross-region billing visibility and container health tracking. *Solution:* Built a multi-region cloud governance platform on Cloud Foundry using React 19 and CAP; engineered a 12-rule findings engine, proportional memory cost attribution, and automated UAS/CF REST consumption telemetry.
- **Reconly (Automated Vendor Reconciliation):** *Problem:* Manual 3-way invoice matching created AP audit bottlenecks and MSME statutory penalty compliance risks. *Solution:* Developed an automated 3-way matching engine across 50 business scenarios with live S/4HANA sync, SAPUI5 workbenches, and SAP Document AI service for automated key-value invoice extraction.
- **ProdOps (Production Order Execution Platform):** *Problem:* Manufacturing plants experienced shop-floor tracking delays and data disconnect with ERP orders. *Solution:* Built a shop-floor portal integrating SAP S/4HANA Cloud (OData v2, Event Mesh) with CAP Node.js and React 19/UI5; engineered a 3-dimension status engine, MIGO goods movements (261/101), and sub-second WebSocket telemetry.
- **Star Award Recognition:** Honored for technical excellence in architecting core SAP BTP platforms, automating enterprise P2P and shop-floor workflows, and integrating production AI capabilities.

Machine Learning Intern Sept 2025 – Oct 2025
CodeAlpha Limited

- Developed predictive machine learning models using Python, Scikit-learn, and TensorFlow for data analytics workflows.
- Performed data preprocessing, feature engineering, and exploratory data analysis using Pandas and NumPy to optimize model inference.

Projects

Secure Multi-Tenant RAG Document Assistant Jan 2026

- *Problem:* Corporate documents caused retrieval latency and cross-tenant data leakage risks. *Solution:* Built a secure retrieval system using vector embeddings, indexing, and similarity search with strict multi-tenant access control for natural language Q&A.

PPE Compliance Monitoring System April 2026

- *Problem:* Manual plant floor safety audits failed to ensure continuous PPE compliance. *Solution:* Engineered a real-time computer vision pipeline using Python, YOLO, and OpenCV, optimizing edge inference to **41 FPS** with automated violation alerts.

Call Centre Compliance Monitoring System Feb 2026

- *Problem:* Manual QA auditing of customer service calls was sample-limited and inconsistent. *Solution:* Built an automated speech-to-text NLP pipeline to analyze audio recordings, detect script violations, and generate quality compliance scores.

Technical Skills

SAP BTP Ecosystem: SAP BTP, SAP CAP (Node.js/CDS), SAP S/4HANA Cloud (OData v2/v4), SAPUI5, UI5 Web Components, Cloud Foundry, SAP Event Mesh, SAP Document AI, SAP UAS, SAP XSUAA, MTA, Approuter
AI, ML & Intelligent Systems: Large Language Models (LLMs), RAG Pipelines, Vector Search, Computer Vision (YOLO, OpenCV), PyTorch, Scikit-learn, Speech/NLP, SAP Joule
Programming & Full-Stack: Python, JavaScript, TypeScript, C/C++, Java, React 19, Node.js, Express.js, Vite, Tailwind CSS, WebSockets, REST APIs
Databases & DevOps: SAP HANA Cloud, PostgreSQL, SQLite, MongoDB, Docker, Git, GitHub, Postman, SAP Fiori Horizon

Achievements

- **Star Award** — Abhiyanta India Solutions: Honored for outstanding technical delivery in enterprise SAP BTP and AI solutions, 2026.
- **Avishkar Competition** — State Level Semi-Finalists; Top 10 out of 1,500+ Teams across Maharashtra, 2025.
- **Innovatexpo MESCOE Hackathon** — Finalist, 2025.
- **2nd Prize** — College-Level Technical Competition, 2024.
